Testing – Jest, Cypress, Playwright | **Agentic Engineering** – Cursor, Claude Code, MCP

Professional Experience

Software Engineer

Feb 2024 – Present

Concept3D | Remote | *Private SaaS company serving higher education*

Company-wide Employee of the Month (February 2026)

- Develop and own complex full-stack features across reservations, invoicing, reporting, and integrations for a multi-tenant SaaS platform using React, Express, PostgreSQL, and AWS.
- Serve as team release manager for biweekly production releases, managing release versions, verifying code merges and QA readiness, facilitating daily release check-ins, escalating risks, and partnering on release scheduling.
- Develop AI-assisted workflows using Cursor to automate Sentry issue triage, accelerate bug investigation, and streamline the team's bug reporting process.
- Implement accessible features and contribute to maintaining WCAG 2.2 AA compliance through automated testing and accessibility-focused development practices.

Jr. Backend Engineer

May 2023 – Jan 2024

Stay Ai | Remote | *Venture-backed ecommerce SaaS company*

- Developed customer-facing subscription management and promotions features using React, JavaScript, Node.js, and PostgreSQL.
- Built a subscription management landing page that consolidated subscribers' subscriptions and provided quick access to common actions.
- Collaborated with product and data science to develop analytics features, including churn-rate reporting for the customer dashboard.

Associate Software Developer

Feb 2022 – Mar 2023

Rightpoint | Remote | *Global digital consultancy*

- Built backend services for an enterprise promotions platform supporting 3.1 million users across 20 countries.
- Developed APIs and backend functionality using TypeScript, Node.js, and MongoDB.
- Collaborated with a global cross-functional team to design, develop, test, and deliver enterprise software.

Special Education Teacher

2017 – 2022

Instructional Assistant

2013 – 2017

Seattle Public Schools / Highline Public Schools / Fremont Unified School District

- Led individualized, technology-integrated instruction for students with diverse learning needs while managing and training teams of 3–5 instructional assistants.
 - Developed and implemented individualized education plans (IEPs), coordinating with families and multidisciplinary teams to support student progress.
-
